Springfield Marine

ABOUT SPRINGFIELD MARINE

Springfield Aluminum Company was founded in 1952 by Garnett Carnahan as an aluminum foundry and quickly found itself in a new emerging marine market that developed across the USA. By the late 1970's, the marine industry was the primary customer base that allowed **SPRINGFIELD MARINE** to develop as a brand of marine seating hardware. **SPRINGFIELD MARINE** has pioneered the marine seating industry with innovative designs that have allowed numerous patents and design acknowledgments that still hold the brand strong today. **SPRINGFIELD MARINE** continues to develop products to meet the growing needs of the marine industry while maintaining durability for safety, stability, and comfort.

SPRINGFIELD MARINE COMPANY has been doing business in China since 1990. Our state of the art facility in Jiangsu offers nearly 70,000 m² of in-house product designs, manufacturing, molding, and logistic services.

To ensure quality and customer satisfaction, we have continuously obtained the following authentications:

- Certificate of type approval of China Classification Society (CCS)
- DNV Business Assurance Management System Certificate (DNV)
- Type Approval Certificate (BV)
- EC Type-Examination Certificate
- ABYC H-31 Classifications (USA)

Our goal is to establish long term relationships to help grow and increase your market shares, as well as provide top of the line products that offer the comfort and safety your customers demand.

WARRANTY INFORMATION

HARDWARE: 5 Year Limited Warranty: Hardware (Pedestals, Mounts & Accessories)

For a period of 5 years from the date of sale to the first use purchaser, **SPRINGFIELD MARINE CO.** will repair or replace, at our discretion, any product which proves to have manufacturer's defect in materials and workmanship under normal and proper usage.

SEATING: 1 Year Limited Warranty: Upholstery & Cushions.

(Upholstery & cushions) For a period of 1 year from the date of sale to the first use purchaser, **SPRINGFIELD MARINE CO.** will repair or replace, at our discretion, any upholstered product which proves to have manufacturer's defect involving vinyl, fabric, leather or foam components in materials and workmanship under normal and proper usage.

SEATING: 5 Year Limited Warranty: Frame & Substrate.

(Frame & substrate) For a period of 5 years from the date of sale to the first use purchaser, **SPRINGFIELD MARINE CO.** will repair or replace, at our discretion, any seating product which proves to have manufacturer's defect involving frame or substrate components in materials and workmanship under normal and proper usage.

THIS WARRANTY DOES NOT EXTEND TO CONSEQUENTIAL DAMAGES. (Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.)

The foregoing is the only warranty or representation made, express or implied, and specifically there is NO WARRANTY OF MERCHANTABILITY and NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

SPRINGFIELD MARINE CO. is not liable for improper installation or improper use of the product or any failure or problems from lack of reasonable maintenance, racing activities, or commercial applications.

THIS WARRANTY SHALL BE CONSIDERED VOID IF, The seat or any accessory/equipment has been altered, modified, changed or reworked, subjected to abuse, neglect, or accident, including abnormal use, the seat is installed in a manner that would subject the seat to abnormal use. THIS WARRANTY IS VOID IF MIXING **SPRINGFIELD MARINE** COMPONENTS WITH NON-**SPRINGFIELD MARINE** PARTS.

In order to obtain service under the warranty, the customer must notify our customer service department to obtain a return authorization. Phone: (417) 725-2667

Seating

ABOUT SEATING

Springfield Marine knows that comfort is important in marine seating. Whether behind the wheel for long passages in rough water, dropping a line in a quiet creek, or anywhere in between. Springfield Marine offers a wide range of configurations and options.

Quality, comfort, and strength add up to value, and value is an important consideration in choosing the best seating system that's right for you. Our wide variety of chairs and even greater choice of seating hardware provide an array of combinations second to none.

Matching the chair with the correct seating hardware is also an important consideration in product selection. So whether selecting one of our seating packages or making your own combinations, Springfield Marine offers the right product to meet a wide range of needs.

Custom Seating and Upholstrey available upon request for OEM production.

KingPin™ Series

ABOUT KINGPIN™

Springfield Marine's first generation removable pedestal, the KingPin™ is still the most popular seating system among freshwater boaters. The centerpiece of the KingPin™ system is the Hi-Lo pedestal. In the Hi position, the pedestal is a comfortable fishing seat. Remove the post and insert the seat mount into the base for the Lo position - ideal for compact storage to provide maximum visibility for the driver while the boat is underway.

It's simple... a 3/4" E-Coated steel pin extends from the bottom of the pedestal as well as from the bottom of the seat mount. And each pin fits into the socket of the KingPin™ deck base. Aluminum post available in anodized, e-coated or polished.

Springfield Marine offers the KingPin™ system in a choice of two styles... Standard and Threaded. The Standard pin, with its high-strength composite clip, is designed to prevent unintentional detachment. Threaded has a threaded pin at the bottom of the post which can simply and easily be threaded into the base. Both systems provide an effective, safe, and secure boating experience, that meet the ABYC H-31 standard for fishing positions.

Posts have been updated to Anodized for corrosion resistance and visual appeal.

System meets ABYC H-31 B Rating.

PRODUCTS IN THE KINGPIN™ SERIES ARE
DESIGNED FOR RECREATIONAL USE ONLY

Taper-Lock™ Series

ABOUT TAPER-LOCK™

Springfield Marine introduced the Taper-Lock™ pedestal system in 1982. Since then, over One Million units have been sold!

The design of the Taper-Lock™ provides the most stable, secure, and versatile systems in the industry. The slight taper of the high-strength composite bushing matches the corresponding taper in the socket of the pedestal base, thus creating a snug, secure fit that can be disengaged as needed. To prevent turning freely, the Taper-Lock™ bushing features a locking tab which also helps hold the pedestal firmly in place.

Ideal for fishing boats, the Taper-Lock™ has been widely used by many of the top-name boat builders in the industry for many years.

ABOUT PLUG-IN™

Springfield Marine's removable pedestal series includes the Plug-In™. Stainless steel hardware, high-strength aluminum, and engineering grade plastics are used throughout to ensure the highest quality of all parts. High strength keyed Aluminum Anodized post fits into base with inner and outer bushing for clean look and sturdy function.

The Plug-In™ series features a unique notched and keyed design that provides security against rotation in the base and seat mount. Once the post is securely engaged into the base, the Plug-In™ provides a safe and stable seating system for your comfort.

This strong and sturdy interlocking design has continued to make the Plug-In™ series an ongoing popular choice of removable pedestal systems for boats used in punishing freshwater & Saltwater conditions.

Use On:

Pontoon Boats

Bow Rider

Fishing Boats

2-3/8" Hi-Lo replacement bushing.

ABOUT THREAD-LOCK™

Springfield Marine originally introduced the Thread-Lock™ to be used as a table system. Soon we adapted our post-style grill to use the same attachment as the table.

The success of those two products made way for the redesign of the post and base for use as a seating system. A locking mechanism was added to the seat post to provide a secure and wobble free experience in both fishing models as well as underway models.

Thread-Lock's™ interchangeable parts allow the seating base to be used with the grill or table. The perfect base for a fishing deck... simply remove the seating post, install the grill or table, and enjoy. However, the seat post will not fit into the table base.

With the Thread-Lock™ system, attaching the post to the base is as easy as twisting in a light bulb. And the locking collar gives you peace of mind that your post stays on the base... safe and secure.

THREAD-LOCK™ SERIES

Spring-Lock™ Series

ABOUT SPRING-LOCK™

Springfield Marine presents Spring-Lock™ ... the world's first push button activated pedestal. The industry demanded it -- we created it. High strength stainless steel post for long lasting durability.

With Spring-Lock™ pedestals, we've combined a sturdy and secure ride with fast and easy post removal. The locking latch of the Spring-Lock™ extends from the post and secures it in the base. A push of the button and the latch unlocks the post from the base for easy removal.

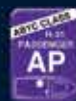

For an even simpler approach, Springfield Marine presents the Clip-Lock even better performance and an easier-to-use system. Designed to capture the end of the post, the base provides all the strength needed to hold it in place during punishing freshwater action. Simply plug the Clip-Lock into the base and go. When you are done, a simple pull on the post removes it up and out of the base.

Use On:

2-3/8" Series

ABOUT 2-3/8" SERIES

Springfield Marine first generation non-removable pedestal system 2-3/8" series is still very popular for inland boats. The system uses a die-cast base with 2-3/8" aluminum extruded post for the pedestal and our famous Trac-Lock™ slides and swivels made with aluminum die-cast, powder coated swivel and extruded slide plates together provide a secure connection between the post and seat pedestal.

As a system this series exceeds the ABYC H-31 requirements for strength and durability. Tested in the lab and in the field with a proven record to last and satisfy.

2-7/8" Series

ABOUT 2-7/8" SERIES

Springfield Marine Second Generation non-removable pedestal system in 2-7/8" offers a heavy duty base and post for today's larger and faster recreational boats. The base is permanent mold AC7A aluminum alloy with anodized finish for maximum strength and corrosion protection. Then a 2-7/8" heavy duty extruded post is pressed and hydra-formed into the base mechanically forming them together. This proprietary process allows maximum strength for a sturdy pedestal.

Locking Shelf Hinge

RETAIL IMAGE	PART NUMBER	DESCRIPTION	PACK QUANTITY
A.	1080030	Stainless Steel Shelf Hinges	1 Pack

90° horizontal locking mechanism. Fold shelf down when not in use. Stainless Steel.

Sold in pairs as shown.

INBOARD POP UP SKI TOWS

OEM IMAGE	PART NUMBER	DESCRIPTION	PACK QUANTITY
A.	1800090	Pop Up Ski Tow, Inboard, Round Base	1 Pack

Pop Up Ski Tows are designed with the strength to handle most tow sport activities. The single post design conceals neatly away into the deck when not in use and is activated with a single locking feature for easy conversion into ski ready position.

Pops up with just a twist, then is held up with a spring.

- 2-1/2" above deck, and 5-1/4" below deck
- Made from high strength aircraft aluminum
- Anodized finish
- Designed for 2000 lbs static load

Stows flush

OUTBOARD POP UP SKI TOWS

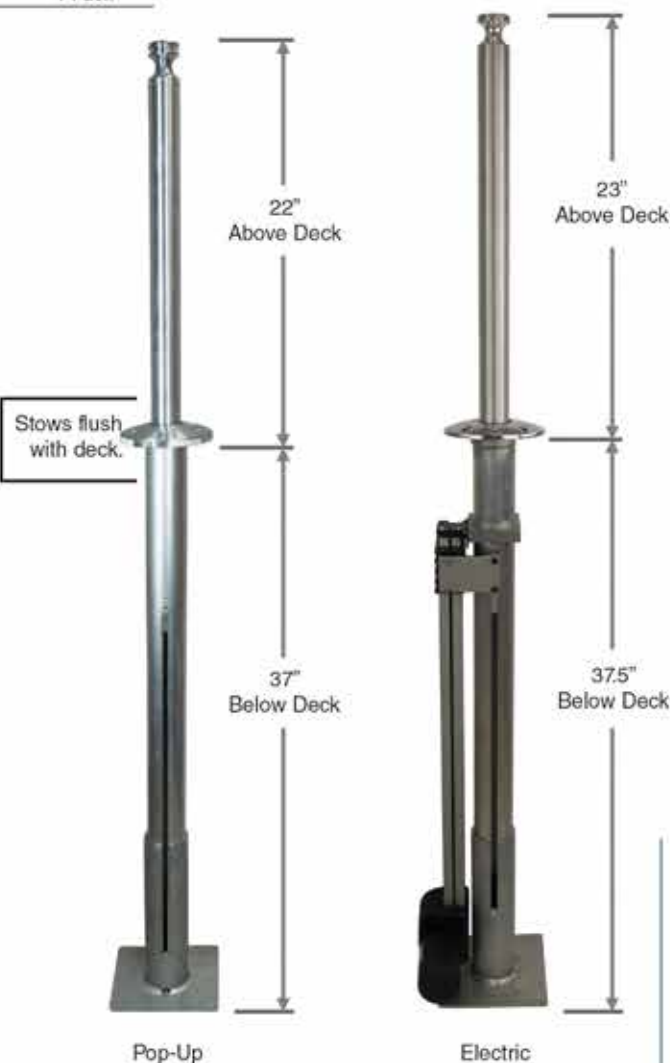

OEM IMAGE	PART NUMBER	DESCRIPTION	ABOVE DECK	BELOW DECK	PACK QUANTITY
A.	1800095	Pop Up Ski Tow, Outboard, Round Base	22"	37"	1 Pack
A.	1800095-EX	Pop Up Ski Tow, Outboard, Round Base	22"	45"	1 Pack

B.	1800097	Pop up Ski Tow, Outboard, Oval Base	15"	28"	1 Pack

Ski Tows are designed with the strength to handle most tow sport activities. The single post design conceals neatly away into the deck when not in use.

- Stows flush with deck
- Made from aircraft grade aluminum
- Designed for 2000 lbs static load // Except for PN: 1800096-E

(A. & B.) The Pop Up Ski Tows are activated with a single locking feature for easy conversion into ski ready position. 22" above deck and 37" below deck.

(C.) The Electric Ski Tow tracks up and down on a guid rail, and raises in under 25 seconds, at the press of a switch. 23" above deck and 37.5" below deck. Designed for 1600lbs of Static Load.

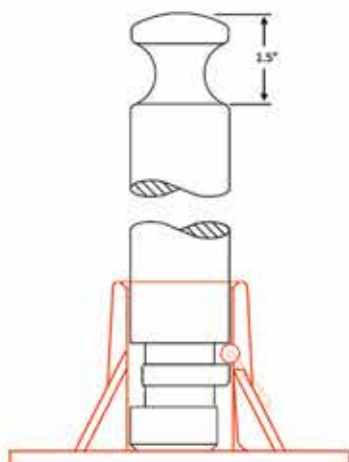

SKI TOW PYLONS

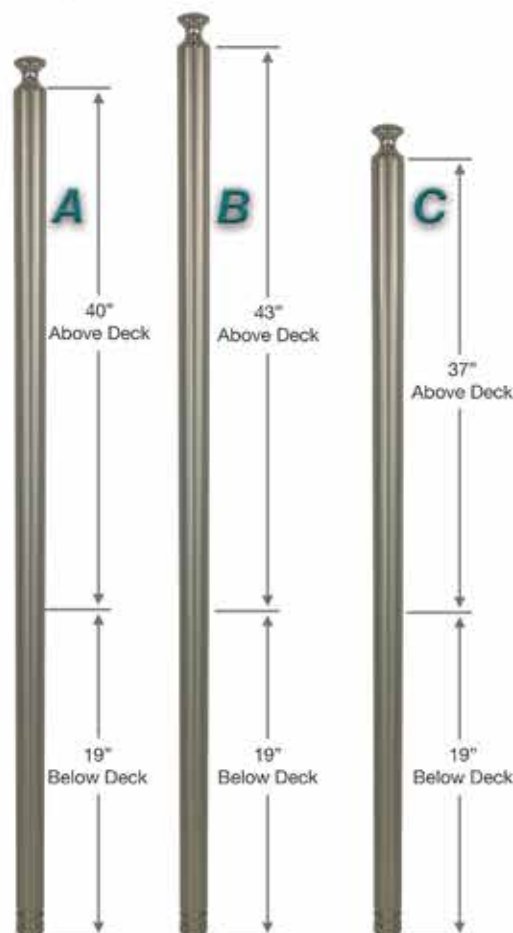

OEM IMAGE	PART NUMBER	DESCRIPTION	TOTAL LENGTH	ABOVE DECK	PACK QUANTITY
A.	1800039-T	Ski Tow, Twist In	57.7"	40"	1 Pack
A.	1800040-T	Low Profile Twist In	38.7"	33.3"	1 Pack

SPRINGFIELD MARINE'S

Color Coding System

Our Color-Coded Packaging System simplifies your search for the right item to fit your boat. Simply match the parts according to the color of your product series to ensure proper fit.

Springfield Marine Company

is a proud member of these associations and subscribes to the standards and practices which they set forth.

About ABYC H-31 Classifications And Safety Standards

The American Boat and Yacht Council (ABYC) has recommended marine industry seating standards for pedestal applications into two separate categories as follows:

Class A Seat designed for occupancy while the boat is underway at any speed.

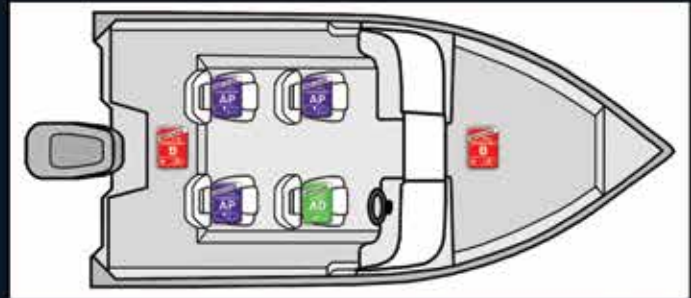

Class B Seat designed for occupancy only at boat speeds not exceeding five miles per hour (fishing or trolling).

All pedestals must pass a series of tests within each of these classifications which include horizontal and vertical impacts, torque, static load, fatigue, and fastener pull testing.

There are two types of class A seats:

Class AP - Passenger Seat mount must resist 30 foot pounds of torque (non-locking).

Class AD - Driver Seat mount must incorporate a "mechanical interference lock" and resist 150 foot pounds of torque (locking).

CLASS B

CLASS AP

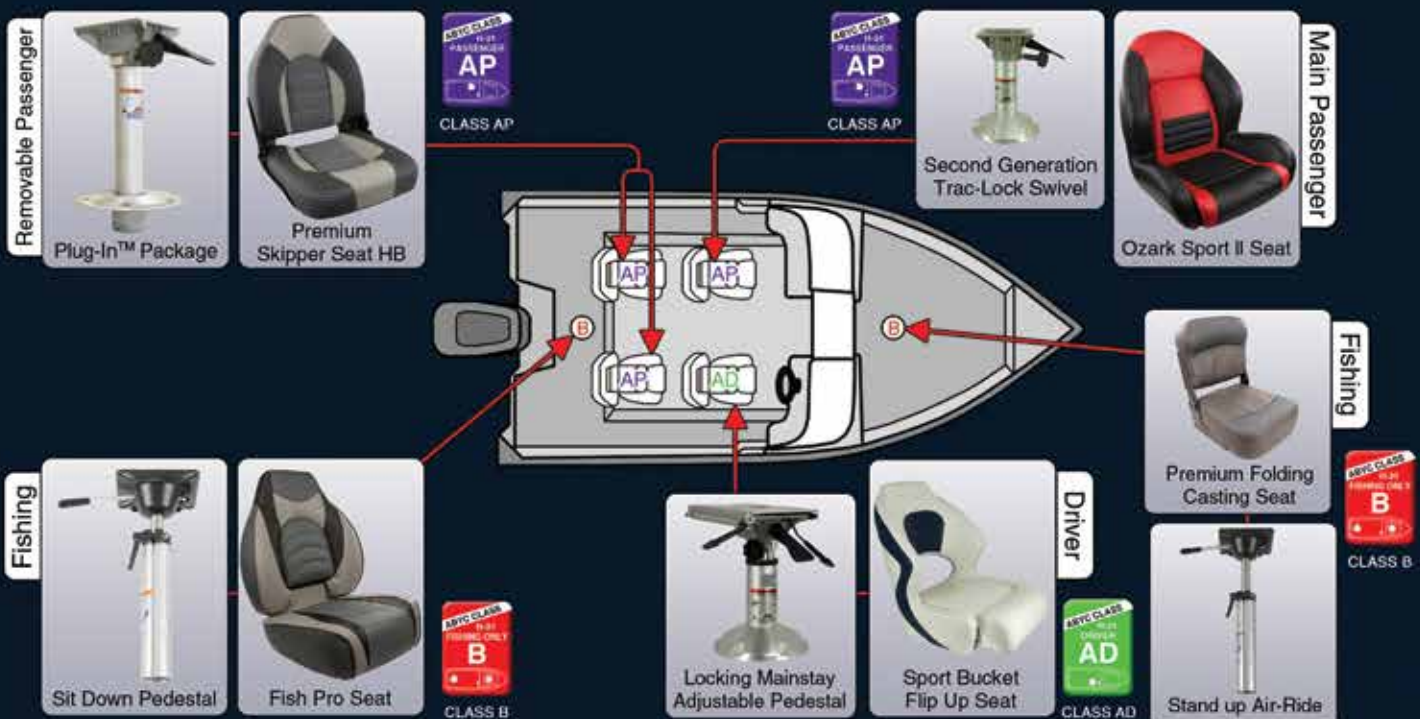

CLASS AD

Look for these labels to identify the ABYC H-31 Classifications

Springfield Marine Company has been a leader in establishing and complying with these ABYC recommended standards.

IN ORDER TO COMPLY WITH THESE STANDARDS, SPRINGFIELD COMPONENTS MUST BE COMBINED WITH OTHER SPRINGFIELD PARTS. MIXING SPRINGFIELD PARTS WITH NON-SPRINGFIELD COMPONENTS VOIDS THESE STANDARD CLASSIFICATIONS.

ABYC H-31

Example of multiple parts on typical model boat
